Zoom Sessions for Friday online schooling.

1. Each student is required to check in with their Friday Mentor between 9:00 and 9:15 AM every Friday via zoom. Failure to attend 3 sessions total will result in truancy proceedings.
2. Once again, students are invited to be part of a google classroom. It has been established to house any announcements to the Middle School and High School students, and provide the links for their Zoom sessions with their teachers. How to access this class is included with this flyer.
3. If students have a 75% or better they need not check in with any other teacher that day. If students have less than a 75% in any course then they must sign in with their teachers to help them complete their course work and improve.
4. **ALL STUDENTS will have work to complete on Friday.** The assignments will open up in Canvas, or in case of Ojibwe Google Classroom, on Friday morning and close at 3:15 Friday afternoon. They must be completed and turned in by the closing time.

Logging into Canvas

The following are instructions on how to access Accelerate Ed coursework inside the Canvas learning platform.

1. Log into your School Email account.
2. Open another tab and go to canvas.gennet.us

3. Click on the  and it should log you into your account. Do not reenter your email address and password because it won't work. Just login with Google.

4. Select the course you want to work on from your Dashboard  and begin working.

Canvas Help Tools

If you need help in Canvas with reading the assignments and other required work there are some tools to help you. To access these tools, follow these instructions.

1. Locate the Compass Rose on the screen.

2. Click on the side arrow to the left of the Compass Rose.

3. A menu will open up with several options.

4. The following are what each symbol means.
- Select the pointer finger to choose what you want read to you
 - Select the play button to have the system read the whole lesson screen to you.
 - The Pause and Stop selections will pause and stop the read to me functions
 - The globe will translate the text into a different language
 - The book will look up selected words in the dictionary
 - The picture of the sun and mountains will display a visual dictionary
 - The eye will shadow box the readings in a lesson to reduce what you see on the screen to focus on it
 - The gear allows you to change the speed of the read to me, language it translates into, color in which it highlights, and the size and shape of the shadow box.

Parent/Guardian Information

If you are a parent/guardian and wish to have access as an observer of your student, please contact the school with your request and provide a valid email address that you regularly check. As soon as the administrator of the system has time he will email you a code and a link with instructions. Follow the instructions and enter the student specific code and you will be able to track their progress in Canvas. You will only be able to see what your student has been working on, how they have been performing, and how much time they are spending in each course you are observing them in.

Online Friday Instruction

Dear OCS Families,

Starting Friday, 10/16/2020, we will be starting online instruction. Each student will be given a homeroom teacher. Your student must log on every Friday between 9am and 9:15am. Students that fail to log onto the zoom meeting will result in an absence. Three absences will result in a truancy call.

Students with a grade lower than a 75% in any class, must get on those teacher's zoom meetings, between 9:15am and 11am, to receive additional help.

We are requesting that each guardian fill out the form at the bottom of the sheet and have the student return them to their homeroom teachers.

Thank You
